

# Open Minds

## Evolve Better

### Domain of Service: Education and Upskilling

**Targets: Academia, Schools, Colleges, Universities, Corporates, Rural, and Urban Areas**

---

### Vision Statement

*“Revolutionizing education through innovative, interactive, and immersive learning experiences, bridging the gap between traditional methods and the dynamic needs of today’s learners.”*

---

### Mission Statement

*“Delivering holistic education that seamlessly integrates academic excellence with essential life skills, preparing learners for a future of boundless possibilities. Our commitment lies in fostering a culture of continuous improvement and adaptability, nurturing both urban and rural communities.”*

---

### About Open Minds

Open Minds is on a mission to redefine the educational landscape. We believe that engaged, interactive, and immersive learning experiences are the key to closing the gap between students and teachers. Our approach centers around innovative events that amplify learning.

---

## Key Events and Initiatives

### 1. **The Success Heist Show:**

- An exploration of Machine Learning's impact on Biotechnology and Food Technology, inspired by "The Money Heist." Participants revel in a thrilling and educational experience.

### 2. **Trainathon:**

- A hackathon aboard a moving train, presenting unique challenges such as port malfunctions, low battery, and unstable network connections. This event sharpens participants' cognitive abilities and problem-solving skills.

### 3. **Moonlight Talk:**

- Held under the full moon in open spaces, this event offers a serene setting for discussions, promoting a novel approach to learning.

### 4. **Talk at Boat:**

- Engaging talks in a boathouse setting, providing a refreshing change of environment for insightful discussions.

### 5. **Fire Camp Fires:**

- Intimate group discussions around campfires at hill stations, fostering open communication and camaraderie.

### 6. **Leadership Summits:**

- Dynamic events designed to break the ice and cultivate leadership skills.
- 

## Our Approach

### 1. **Simplifying Complex Technologies:**

- We bridge the gap between academia and industry by inviting experts to our sessions. Our well-developed curriculum, flexible timings, and specially crafted activities make advanced topics accessible and engaging.

## **2. Life Skills Integration:**

- Beyond technology sessions, we offer life skills workshops covering survival skills, hygiene tips by doctors, financial management by bankers, legal rights by lawyers, organic gardening, and consumer rights education by BIS. These sessions aim to create well-rounded, responsible citizens.

## **3. Focus on Rural Development:**

- Our dedication extends beyond CSR activities. We uplift rural areas by providing cutting-edge education and resources to communities lacking access to modern technology.

## **4. Engaging Learning Experiences:**

- We craft unforgettable moments by incorporating themes and activities that resonate with our participants. From role-playing beloved characters to hosting unique events, we ensure a fun and impactful learning journey.

---

# **Career Development Support**

## **1. HR and Recruitment Expertise:**

- Our HR experts guide participants on navigating ATS, crafting award-winning resumes, and creating video resumes. Top managers share insights on management, while technical leads offer perspectives on interviews and career paths in leading tech companies.

## **2. Networking and Public Speaking:**

- Our tailored sessions on LinkedIn optimization, networking, and public speaking empower participants to forge valuable connections and elevate their communication prowess. We create platforms for students to take the stage, often for the first time, bolstering their confidence and honing their public speaking abilities.

## **Conclusion:**

At Open Minds, our commitment extends beyond the present moment. We impart knowledge while understanding the aspirations of our participants, delivering impactful learning experiences. Join us in our mission to evolve better and explore the uncharted territories of education.

## **Contact Us:**

We are Open Minds, perpetually advancing one step beyond yesterday. Come, explore the unexplored with us.
